WOODSIDE AND UNIPER SIGN HOA FOR MID-TERM LNG SUPPLY

Woodside Energy Trading Singapore Pte Ltd has signed a Heads of Agreement (HOA) with Uniper Global Commodities SE (Uniper) for the supply of up to 0.6 million tonnes of LNG per annum over a period of four years commencing in 2019.

Woodside CEO Peter Coleman said the LNG would be supplied from the company's portfolio sources to markets in Europe and Asia.

"This agreement illustrates further diversification of Woodside's buyer relationships and the increasing interaction between participants in the Asia-Pacific and Atlantic LNG markets as international trading patterns become more liquid.

"Uniper is a global utility and among the largest energy commodity trading companies in the world. We look forward to building on this new relationship," he said.

Uniper CEO Keith Martin said: "We are pleased to sign this deal with Woodside, a global LNG producer with long experience of operating reliable LNG facilities using cutting-edge technology.

"This deal is another step for Uniper in establishing long-term partnerships globally and demonstrates our ambitions to further grow Uniper's Asian portfolio whilst leveraging our midstream assets in Europe."

The HOA is conditional on the execution of a fully termed LNG sales and purchase agreement.
