**(As with all questions in this questionnaire, information you provide here will appear in your public report.)**

In 2015, Woodside commenced a three year strategy to drive sustainable improvements in gender diversity at all levels of the workforce and has seen positive progress. The Women of Woodside and Man Up networks support the strategy by delivering agreed activities, enabling personal action (for men and women) and promoting awareness and education of gender equity issues.

Overall, female representation has increased to 28.4% at the end of 2016. Woodside continues to focus on driving gender balance through Graduate Program offers and increasing our number of female apprentices and trainees. In 2016, the overall female graduate intake was 50% and apprentices and trainees was 21%. Woodside has taken specific action to broaden the pool of future female talent at school and university level. Nine gender specific scholarships were active in 2016 and 44% of Woodside's active professional scholarship recipients were Indigenous women.

Female voluntary turnover decreased from 5.3% in 2015 to 3.6% in 2016. Development and retention of senior women has been a focus and encouragingly, the turnover in this group reduced to 1% at the end of 2016. Following strong internal promotions and improved retention, at the end of 2016 women held 29.4% of mid-level roles, 16.2% of senior management roles and 19.6% of executive positions, exceeding the targets set out in the three year strategy. Further information can be found in Woodside's Sustainable Development Report (2016).
